HW #5 Due on Oct 29th

Ask at least 10 people the following yes/no questions:

- 1) Do you believe that extraterrestrial life exists?
- 2) Do you believe that UFOs are extraterrestrial visitors?
- 3) Should the US fund searches for extraterrestrial life?

Try to get variety of people, not just your roommates, and try not to influence results. Turn in a paper with your name and number of people who responded yes to the three questions.

Comment on your results.
